INTRODUCTION

This report gives a socio-economic profile of the Aboriginal population of Manitoba, using data collected by questions 18, 20 and 21 of the 2001 Census (see below for the questions). The data is drawn from a 20% sample of households only. The Dakota Tipi Indian Reserve located near Portage la Prairie was not enumerated in the 2001 Census (population estimated at 110).

It is to be noted that the information in this report excludes persons not counted in the 2001 Census. Statistics Canada estimates there were 30,903 Manitobans missed at the Manitoba level. The number of persons missed on completely enumerated Indian Reserves is estimated at 7,256.

Aboriginal refers to those persons who reported identifying with at least one aboriginal group, i.e. North American Indian, Metis or Inuit (Eskimo), and/or those who reported being a Treaty Indian or a Registered Indian.

Tables 1 - 8 provide the data comparisons while Tables 9 - 16 provide the percent distributions for each of the items given in the first eight tables. Each table provides information for three Aboriginal groups and for all Manitobans. The categories are::

Total Aboriginal
Total Aboriginal On Reserve
Total Aboriginal Off Reserve
All Manitobans

Appendix A presents selected information on an Economic Region basis.

MBS has additional detailed profile information for Total Aboriginal, Registered North American Indian, Metis and Inuit populations by Economic Region available on a fee for service basis. For additional information or special tabulations, please contact Marcel Chartier at (204) 945-2991.
